Vet Check Puzzle

By MARJ BEASLEY

NO ONE likes his horse to be sick or injured, but ailments do occur. This puzzle is a good review of some of the problems horses can have, and of some of the terms used in veterinary medicine. If you can't recall an ailment, grab your veterinary book and "bone up!" The object of the puzzle is to put each word listed below in its appropriate place. For example, "respiration" fits in the upper left corner, as shown. Good luck!
